SATURDAY MORNING, DEC. 8. The City Convention To-Night. Remember this important meeting to-night at the Union Club Rooms. We hope that all the delegates will be promptly on hand at half past seven

WE have received the first number of the Dayton (O.) Daily Chronicle, published by Gardner & Reynolds. It is a well gotten up newspaper enterprise, and we hope it may succeed

## Two Excellent Periodicals.

The last number of "Every Satur day," published by Ticknor & Fields. of Boston, is entirely devoted to Charles Dickens' new Christmas book, Mugbu Junction. It is printed in the United States, by arrangement with Mr. Dickens, a week before its appearance in England. Eight stories, four of which are by Mr. Dickens himself, are strung together on a slender thread under plot and are all excellent of their kind. We are glad to notice the increasing success of "Every Saturday." It is a choice family periodical.

There are few issues of the press that wear like Littell's Living Age, published in weekly numbers at Boston, by Littell, Son & Co. We have turned to its pages with unabated interest for many years, and in all that time have been made more familiar with its high excellence as a magazine. The very best of everything in the European periodical press is gathered into its pages. The price is \$8 per annum.

## The Street Railroad Project.

Our projected street railroad enterprise has not yet become an accomfrom abroad. We think we are justified in saying that the conviction gains ground daily that the road, when built, will pay good dividends. Those who have studied the matter most minutely are of this opinion, and are ready to We have seen their estimates of receipts from travel across the Suspen-the Bridge Company, and the revenue from this one source alone would be very Landsome. The idea of the Company would be to extend their line to Bridgeport, and to do a general freight as well as passenger business. Unless all calculations, based upon incontestible facts and figures, should fail, the receipts would make the line a success from the outset.

In this connection we may refer to a long article in the Philadelphia Amer-ican on the subject of street railroads in that city. The history of several of the lines is glanced at, and the editor revives the predictions that were hazarded by some capitalists, who thought they knew, as to the riskiness of the respective enterprises. Many of the mo-neyed men shook their heads and shrugged their shoulders, and would not enture to embark in the experiments. The same persons were glad afterwards to buy the stock of those roads at a premium, as investments. So it is with almost all new enterprises. It was so with the Gas Company in this city but a few years ago. The stock went begging in the market, and at one time here was a probability that the necessary capital could not be raised. Nowa-days who would not like to be the

The property of members of Concrete the pay of members of Concrete the pay of members of Concrete the property of members of Concrete the property of the pr that "an overwhelming majority of the people of the United States are in favor of the President's restoration policy." Exactly how they reach this result is not stated, and, in view of the overwhelming Republican majorities in all but three of the loyal States that have yet voted out of the twenty-five, we are curious to know. We suppose, however, that it is attained by taking the Copperhead strength in the North, adding to it all the rebels in the South who served in the armies of Lee, Johnston, Dick Taylor, or elsewhere, as well as those who remain at house to hunt fugitive Unionists, and the resulting a victory is novel, at least. But what do the Copperheads propose to do with it?

Mr. Lawrence, of Ohlo, introduced a bill to repeal the law of last session increasing the pay of members of Committeed States and Dealers in all thread Dealers in all thread Seeds, Grain, Produce, &c.,

Money and Business Matters.

The dullness of general business is creasing, and awakens the most pro-und concern. Of its causes, the fol-wing are regarded as the most promint: First, the languor resulting from the

over excitement and speculative infla-tion incident to our redundant curren-cy, which has been subject to sudden and great fluctuations in value. Secondly, the depression caused by heavy and injudiciously distributed taxes, chiefly those of the Internal rev-enue.

prise has not yet become an accomplished fact. Our last information is that all the necessary stock has not been taken. Those who have it in charge, however, are not discouraged. They intend to push it through to successful completion. We believe that before a great while the road will be built, either by a company at home or from showed. We think the successful correcting themselves. The time is at hand before a great while the road will be built, either by a company at home or from showed. We think the successful correcting themselves. The time is at hand the successful correcting themselves. The time is at hand the correcting themselves. The time is at hand the correcting themselves are able to converte the country within a much smaller volume of currency within care of both sides of their bill-book—n proceeding few houses are able to con-tinue for a long period. The business of the year has not been prosperous, but the reverse, but commodities, from January, 1886, have been sold upon a falling market.

re of this opinion, and are ready to ack up their faith with their cash. We have seen their estimates of releipts from travel across the Suspenion Bridge, taken from the books of Wool Fleere Savano \$900 \$400

Wool Fleece, Saxony, 70875c. 50665c. 10620c. The losses in cotton, coal and wool have been equalled in the provision trade, and among trades generally. All trading on credit have seen their assets shrink, while their notes stared them in the face at the original amount. The idea that business is now done for cash and that the credit system has been suspended by the use of greenbacks, is reported weekly by the bank statements of the country, which report an aggregate of loans as startling as those reported in January, 1857. The session of Congress will be of more importance, financially, than any recorded in the history of the nation, and too much caution cannot be shown by the community in making now money engagements.

The New Law in Regard to the Elec

tion of U. S. Senators.

President Johnson in his late message recommended that hereafter U. S. Senators should be elected by the people, the same as Congressmen. We doubt altogether the wisdom of such a recom mendation. It seems to us that all the the old method of electing them by the legislatures of the respective States, have been met by the law passed on the 25th day of last July. The substance of its provisions is as follows: The Legislatures of each State which the substance of the provisions is as follows: The Legislatures of each State which the substance of the provisions is as follows: The follows: objection that could be urged against Legislatures of each State which shall Work Boxes, a-days who would not like to be the lowers of a few shares of Ges stock?

READ what Dr. Scovill says of ALLEN'S UNG BALSAM: Messis, J. N. Harris & Co.

Mesrs. J. N. Habris & Co:
GENTS-I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated Pulmonary Consumption! I have witnessed its effects on the young and the old, and I can truly say that it is far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of faul consumption? It causes the phiegm and matter to raise, without Irritating those delicate organs (the Lungs), and without producing constipation or the bowels. It also givesstrength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state. Yours rescutinly, A. L. SCOVILL.

Software baldness, But, above all, the great won ler is the rapidity with which it restores gray hair to its original color.

Use it a few times, and Presto, change! the whitest and worst looking hair resumes its youthful beauty. It does not dye the hair, but strikes at the root and fills it with new life and coloring matter.

It will not take a long disagreeable trial to prove the truth of this matter. The first application will do good; you will see the Natural Color returning every day, and before you know it, the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining and beautiful locks.

Ask for hall's Sicilian Hair Renewer; no other article is at all alike it in effect. You will find it cheap to buy, pleasant to try, and sure to do you good.
